Hi Candon,

As mentioned in EPA's comment letter, attached is a Word file of the Shoshone-Bannock Tribes proposed WQS with redline suggesting minor edits and organizational revisions. For your awareness, one of the other commenter's names you will see in the file is Jennifer Byrne, an attorney in the Office of Regional Council. When you have had a chance to review the suggested edits and comments provided in this Word document and the comment letter, let's schedule a call to discuss any remaining questions, (including others such as Rochelle Labiosa, as appropriate).

Thank you, and have a great weekend!

Rachael Renkens (she/her)
